

UNIONE SINDACALE DI BASE VIGILI DEL FUOCO

FLASH MOB "STOP AUSTERITY"

The FIRE NATIONAL CORPS counts 31.634 professional units and carries out more than 2000 rescue services per day all over the Italian country. The 115, the firefighters' national rescue number, is active 24h, ringing every 30 sec.

Despite these numbers, the Italian government hits the National Corps by reducing hirings, rising the retirement age and shrinking the number of trucks.

The moment has come to make a plea to the Italian government to allow us, the National corps of Firefighters, to accomplish our professional activities and work as best as we can, in order to provide all Italian citizens with their fundamental rescue services and rights, without wasting vital economic resources.

Firefighters' trade union
"Unione Sindacale di Base"
National Corps of Italian firefighters

"Give us the
resources to help
citizens ...
We do not want to
give up!"
